

Inspection

Freight Damage: Inspect cartons for obvious damage before accepting and note on delivery ticket.

Concealed Damage: Notify Conwed of any concealed damage within 5 business days of receipt. Claims beyond 5 days will be honored at the discretion of Conwed or the freight company.

Do not install panels of unacceptable quality. Contact your area representative immediately. Conwed will not be responsible for installation or removal costs of unacceptable panels.

Handling and storage

- Handle individual panels 'on edge' to avoid bending when moving and carrying.
- Store panels on a flat, dry, solid surface. Do not store on edge.
- Take necessary measures to keep panels dry, clean and free from dust. Pay special attention to edges.

Installing the baffles

- 1** Review the materials list supplied by Conwed (Plant Order) and any drawings. Carefully determine the starting position of the first baffle.
- 2** Suspend baffles vertically to either eyehooks or D-Rings as supplied. Standard placement is 6" from each edge, and approximately every 24" in the field with a maximum spacing of 30" on 72" wide panels (3 eyehooks or D-Rings).
- 3** Ganging baffles together is usually done using continuous Velcro strips (supplied by Conwed on vertical edges; this also seals out light penetration between baffles).
- 4** In a similar manner, Velcro attached to the bottom of the baffle can be used for attachment to office dividers or similar situations.

Note: We strongly recommend that baffles not be ganged vertically. Thank you for choosing Conwed for your acoustical needs.

The information provided above is correct to the best of our knowledge at time of printing. We reserve the right to make changes without prior notification.

Environmental and sustainability

Conwed is a worldwide leader in building material systems, insulation and composite solutions, delivering a broad range of high-quality products and services. Conwed is committed to driving sustainability by delivering solutions, transforming markets and enhancing lives. More information can be found at www.conwed.com.

For additional information, refer to the Safe Use Instruction Sheet (SUIS) found in the SDS Database via www.conwed.com.

The following are guidelines given in good faith to help avoid common errors. They are not intended to be a step-by-step list of instructions or a checklist, and it is assumed the installer has general construction knowledge. Conwed bears no responsibility for any installation actions taken or not taken, and is not responsible for installer selection.
