

New Dimensions Baffles: Solid Core

New Dimensions Baffles are designed for areas requiring excellent sound absorption with a custom painted finish. With the entire Sherwin-Williams catalog at your disposal, and custom color matching available to you, New Dimensions can meet even your most challenging design requirements. Use in conference rooms, auditoriums, churches, entryways, etc.

Product features

Core construction:

Dimensionally-stable 6-7 PCF fiberglass board, covered with a specially-formulated fiberglass scrim, and finished with paint. The acoustically transparent finish completely covers the face and exposed edges. Edges are protected with a resin hardening.

Size availability	Edge details	Finishes	Mounting	Shapes
<ul style="list-style-type: none"> Thicknesses: 1", 2" Standard max: 4'x10' 	All edges are resin hardened, unless otherwise specified. Available choices include: <ul style="list-style-type: none"> Square 	Custom paint. Please reference Sherwin-Williams catalog at sherwin-williams.com . Color matching available. All color matching requires customer to approve sample(s) before fulfilling order.	Standard mountings: <ul style="list-style-type: none"> Acoustical spring anchor 	—

Custom size is our standard.

Acoustic performance

The values are standard sabins per baffle panel mounted in accordance with ASTM C 423 (Type J Mounting) 2", 24 x 48 baffle.
