

Access Torsion Spring Ceiling System

Access Torsion Spring Ceiling System has an incredibly uniform look with easy to use downward-hinged access panels. This completely hides the suspension system, maintains proper panel alignment, and allows your design to be completely custom. This system shines in large public spaces where access to mechanical equipment, network trays, and electrical is needed on a regular basis.

Product features

Core construction: Dimensionally-stable 6-7 PCF fiberglass board with a 1/8" 16-20 PCF molded glass facer. All system components are rust-free aluminum and galvanized steel to minimize maintenance.

Size availability	Edge details	Finishes	Mounting	Shapes
<ul style="list-style-type: none"> Thicknesses: 1 3/8" Standard max: 4'x4' to 4'x10' 	Fully framed edges are slightly beveled to create a discrete and attractive 3/8" reveal between panels.	<ul style="list-style-type: none"> Factory-finished with a proprietary white, acoustically transparent covering with a "soft drywall" look. Factory painted finish. 	Torsion spring mounting. Grid mains and spacer bars provided (attached by others*).	—

Custom size is our standard.

Acoustic performance

The NRC of the products are determined from an average of sound absorption coefficients, obtained from tests conducted according to ASTM C423 procedures in an NVLAP accredited laboratory.

	HZ →	125	250	500	1000	2000	4000	NRC ↓
1 3/8" thickness		0.09	0.48	0.93	1.13	1.10	1.03	0.90

Additional properties

*Conwed products meet or exceed ASTM E84 standards for smoke development and flame spread on a component level.

	Fire rating*	Improved impact resistance	Scratch resistance	NAF available	Washable	Warranty
1 3/8" thickness	1/A (ASTM E84)	—	—	✓	—	3 years (from date of shipment received)

Initiatives

Sustainability
 Conwed is committed to driving sustainability wherever possible. By streamlining our processes and using recycled materials in our products, we strive to decrease our environmental impact. Our materials are certified by leading social responsibility groups and are helping us pave the way toward a more sustainable future.

For your LEED® projects, our products can help you qualify for different points depending on the product you choose. Contact us to learn more detailed information.
