

## Eurospan

A system of three components that works in virtually any space, that creates seamless acoustical surfaces. Whether it's discrete or jaw-dropping is up to you.

## Baffle

Create seamless baffles spanning hundreds of feet, add custom lighting for ambience, or just rely on it for superior acoustical performance. The Eurospan Baffle does what every acoustic baffle should, only better.

### Assembly

1. Up to 6 foot sections are made in our factory with acoustic core pre installed
2. Individual sections are connected on-site then suspended
3. Suspended full length baffle is finished with fabric, hiding all connection points

### Finishes

#### Eurospan PRIME

Prime is our specially-formulated fabric, perfect for stretch systems. Excellent weight, color, and texture. Available in white, black, custom-dyed, & custom printing.

#### Compatible Brands\*

Carnegie DESIGNTEX  
maharam kvadrat  
Knoll Guilford of Maine

Near endless textures, knits, and colors are available through our premier textile partners.

\*Designer textile widths vary

### Acoustic performance

The NRC of the products are determined from an average of sound absorption coefficients, obtained from tests conducted according to ASTM C423 procedures in an NVLAP accredited laboratory.

Acoustical data ready Q2 2024.

### Optional lighting

- Field replaceable light source
- 50,000 hour lamp life
- Dimmable to 5%
- Anodized finish
- Power supply & feed included

Full lighting data and specs available at [conwed.com/eurobaffle-lighting](https://conwed.com/eurobaffle-lighting)

CRI	90+
Max run length	11' to 45' depending on lighting
Beam angle	Up to 120°
Lumens per foot	100—1500 lm/ft
Color range	Lighting options & specs available

#### Fire Rating

Conwed products meet or exceed ASTM E84 standards for smoke development and flame spread on a component level.

#### Standard Durability

This product has a durable core construction, ideal for out-of-reach areas.

#### Washable

Refer to the Maintenance & Cleaning Guide for more details.
