

## Reflective Wall Panel

Reflective Wall Panels are designed for theaters, auditoriums and other listening environments that require reflective surfaces to balance sound quality.

## Specialized

Conwed's Specialized products do more, or even the opposite, of traditional noise-absorbing acoustic panels. Reflect, diffuse, block, and balance sound in any environment with these customizable solutions.

### Core construction

Dimensionally-stable 6-7 PCF fiberglass board for acoustic performance. Surface completely adhered with 1/16" solid sheet of copolymer for an acoustically-reflective and high impact-resistant finish.

1. Resin hardened edge
2. Fiberglass core
3. Copolymer
4. Fabric Finish

### Acoustic performance

The NRC of the products are determined from an average of sound absorption coefficients, obtained from tests conducted according to ASTM C423 procedures in an NVLAP accredited laboratory.
