

Baffle

Conwed Baffles bring the performance you expect from a world-class acoustic solution to the growing trend of baffles. Combined with the Conwed Express Hanging System, any space can be perfectly fitted with highly customizable baffles.

Fabric | A ▶ Respond A

Conwed's fabric-wrapped products, known as the *Respond Series*, are made with the leading textile manufacturers. **Fabric | A products don't rely on any additional layers of material for our standard durability.**

Core construction

Dimensionally-stable 6-7 PCF fiberglass boards adhered together for acoustic performance. Edges hardened for durability using resin, with connection points preinstalled. Surface is completely adhered with a custom fabric, wrapping around to the back for fully-finished edges.

1. Resin hardened edge
2. Fiberglass core
3. Fabric finish
4. Connection points

Acoustic performance

The acoustic performance of the products are determined from an average of sound absorption coefficients, obtained from tests conducted according to ASTM C423 procedures in an NVLAP accredited laboratory.

Thickness	4'x10'	4'x12'	5'x10'
2"		◦	•
3"	•		
4"		◦	•

NAF Core No-Added-Formaldehyde core max size indicated with **red dot**.

Minimum height of 6"

Edge details

All edges are resin hardened, unless otherwise specified.

Available choices include:

- Square
- Half Bevel

Mounting

Preinstalled connection points ready for suspension hardware.

Conwed Express Hanging System is an optional add-on.

Finish

A wide variety of fabrics are available from all major brands, including:

Carnegie **DESIGNTEX**
maharam **Knoll**
Guilford of Maine **kvadrat**

Fire Rating

Conwed products meet or exceed ASTM E84 standards for smoke development and flame spread on a component level.

Standard Durability

This product has a durable core construction, ideal for out-of-reach areas.

Shapes

This product can be made into custom shapes for complex designs. Contact Customer Service for more info on how we can support your project.
